Education

TELKOM UNIVERSITY

Bachelor's Degree, Informatics. GPA: 3.62/4.00

Bandung, West Java

Jul 2018 – Dec 2022

Experience

INDO SEA FOOD

North Jakarta, DKI Jakarta

Data & ERP Engineer

Aug 2026 – Present

- Architected and deployed an end-to-end internal ERP system as the sole engineer, utilizing Google Cloud Platform (GCP): Google AppSheet as a frontend and Google Cloud SQL (PostgreSQL) as a backend to streamline and unify core business daily operations
- Engineered automated Python ETL pipelines to clean, validate, and migrate 200K+ records from Google Sheets to relational SQL database system, enforcing relational constraints to resolve query and reporting latency
- Delivered real-time Looker Studio BI dashboards for operational insights, while establishing clean data schemas and infrastructure for planned Computer Vision and other Artificial Intelligence models

PETA KEBIJAKAN

Remote

Data Scientist

Mar 2023 – Jun 2023

- Scraped 300+ legislative records from dpr.go.id, assisting the development of a Random Forest machine learning model predicting the progression probability of Indonesian Legislative Draft Bills (RUU)
- Built network visualizations and cosine-similarity analysis to compare legislative drafts, providing insights for a website-integrated recommendation system
- Maintained the company website using Laravel PHP and a PostgreSQL database that was deployed on a VPS
- Collaborated remotely with cross-functional teams of legal experts and academic researchers to align data solutions with policy goals

Training

ELICE AND KEMENKOMDIGI

Cikarang, West Java

Korea-ASEAN Digital Academy Trainee

Sep 2025 – Nov 2025

- Engineered MERN-stack backend and two AI NLP chatbots: one utilizing company data for automated inquiries, and another using customer reviews and sentiment analysis as context for owners to query actionable insights.
- Collaborated in a 6-person, full-English environment, and achieved "Best Project"

DIRJEN DIKTI KEMENDIKBUD RISTEK DIKTI

Remote

Microcredential Certification Associate Data Scientist

Nov 2021 – Dec 2021

- Attained an equivalent of SKKNI (Indonesian National Work Competency Standards) for a Data Scientist.

Technical Skills

Languages: Python, SQL, HTML, CSS, JavaScript, PHP, Dart, Golang, TypeScript, Java

Frameworks: Laravel, Flutter, NodeJS (React, Express), Django, Flask, Bootstrap, Tailwind, Tkinter

Data Libraries: Pandas, Numpy, Matplotlib, Seaborn, Plotly, Streamlit, Scikit Learn, Tensorflow, Keras, NLTK, Scipy, NetworkX, Statsmodels, Linearmodels, LangChain, Huggingface Inference

Other Tools: Microsoft Office, LaTeX, Git, Postman, Trello, Linux, Draw.io, Make.com, Google Cloud Platform (GCP)
